Education

2026 / 2021 — Doctor of Philosophy, University of Innsbruck, Computer Science
- **Advisor** : Assoc. Prof. Eva Zangerle, PhD
- **Thesis** : *Sequential Recommendation : A Graph-based Perspective*

2021 / 2018 — Master of Science, University of Innsbruck, Computer Science
- **Advisor** : Assoc. Prof. Eva Zangerle, PhD
- **Thesis** : *Acceleration and Compression of Deep Click-Through Rate Prediction Models*

2018 / 2015 — Bachelor of Science, University of Innsbruck, Computer Science
- **Advisor** : Clemens Sauerwein, PhD
- **Thesis** : *Lowering the Barrier of Cyber Attacks through Information Shared on Security Experts Forums*

Work Experience

Today / July 2023 — AI Engineering Lead, Doc2Me (formerly femble), Innsbruck/Austria
- Design and development of AI agents and AI-powered video editing
- Leveraging LLMs for content understanding, enhancement and suggestions
- Scalable deployment of AI models in cloud environments

AWS | GCP | PyTorch | Spark | Svelte

2024 / October 2021 — Assistant Teacher, University of Innsbruck, Department of Computer Science
- Classes : Database Systems, Machine Learning
- Tasks : Graded and assisted students with homework, projects, and presentations

July 2021 / April 2021 — Data Science Internship, Mars, Verden/Germany
- Instance segmentation with deep learning
- Web application development to interact with deployed models
- 1st place at the internal Hackathon for predicting pet age

Python | PyTorch | OpenCV | LightGBM | Azure

March 2021 / February 2019 — Software Developer, Speed U Up, Innsbruck/Austria
- Voice assistant applications (Alexa Skills & Google Actions), NLP
- Web development with HTML, CSS, Javascript
- iOS app development with Swift

Alexa SDK | Google Action SDK | AWS | Node.js | Swift

Honors and Awards

2019 — **1st place award** at the *EUREGIO Image Forensic Challenge* 2019. Organized by *mmlab* (University of Trentino) and *Privacy and Security Lab* (University of Innsbruck).
Using a modified ResNet-18 model architecture in Python with Tensorflow.

Workshops and Certifications

2018 — **FZ HPC Training Course** : High Performance Programming with OpenMP.
2021 — **Harvard Innovation Labs** : Accepted into the Spring Venture Program as part of the Build It track.
